The Honorable Patrick J. Leahy
U.S Senate Committee on the Judiciary
224 Dirksen Senate Office Building,
Washington, D.C. 20510-6050

The Honorable Charles Grassley
U.S Senate Committee on the Judiciary
135 Hart Senate Office Building
Washington, D.C. 20510-6050

Dear Chairman Leahy and Ranking Member Grassley:

As you consider the important issues associated with net neutrality, we wanted to share with you TIA's long-standing position that the Internet must continue to remain free and open, allowing for the connectivity of devices and access to information.¹ At the same time, investment and innovation relies upon certainty in the marketplace and the ability to recoup investments made on broadband infrastructure.

At the heart of this debate is the consumer's ability to access information and need for more capacity provided by broadband communications networks that would support the growth of national and global economies.

Deployment of next-generation broadband networks is bringing major advances in education, healthcare, teleworking, e-commerce, public safety and security. These capabilities are equipping users with the tools necessary to compete in the 21st century, making them far more productive, increasing their standards of living, and enhancing economic and physical security. As the DC Circuit held in January, the FCC already has the necessary legal authority for a balanced approach towards maintaining an open Internet.²

The question of whether or not to impose utility-style regulation on Internet Service Providers has previously been thoroughly considered – and rejected by the FCC. The Internet has flourished due to the U.S.'s long standing light touch regulatory approach. Just last week 33 leading technology companies signed the attached letter addressing the harmful impact of public utility regulation and opposing reclassification of the Internet under the Communications Act as a Title II telecommunications service.³

TIA thanks you again, and we look forward to working with you on these important issues.

For more information, please contact Danielle Coffey at (703)-907-7734 or by email at dcoffey@tiaonline.org.

Sincerely,

Grant Seiffert
President
